

What do you think was done well?

What could have been done better?

Was anything missing?

Did the staff member include:

Knee pain is interfering with normal activities?

Hydrochlorothiazide not being taken as prescribed because it makes him pee a lot?

Today's BP 152/91?

PQH 9 score of 8?

51

The staff member has just roomed the patient and will now engage in a Warm Handoff Plus with the clinician.

What do you think was done well?  
What could have been done better?  
Was anything missing?

Did the staff member include:

Current HbA1C?  
10 lb weight loss?  
Improved diet and exercise efforts?
